

Quiz1

MSAN 694, Diane Woodbridge

Description

Given the input file and app names and word in “user_definition.py”, complete the python code “quiz1.py” to find the number of the given word regardless of lower or upper case in the input file.

Submit the quiz1.py file (**ONLY**)- the name of your file should be **quiz1_LastName_Firstname.py** on the link below.

If you run `spark-submit quiz1_Woodbridge_Diane.py > out`, the output should look like as below.
